INTERNATIONAL PRELIMINARY

International application No. PCT/NL 03/00695

EXAMINATION REPORT - SEPARATE SHEET

Closest prior art:

The OTC publication "hybrid riser for deepwater offshore Africa" is

considered the closest prior art and discloses the features of the

preamble of claim 1 and 9.

The installation of a riser requires to stop production and to use Problem:

dedicated installation equipment.

The vessel comprises a hydrocarbon processing unit and storage Solution:

in combination with a lifting means to lower risers vertically. The available prior art does not disclose the combination of a lift and a hydrocarbon processing unit, and it fails to make any suggestions

in this direction. With this new and inventive combination of features, it is possible to continue production while installing an

additional riser and a riser may be installed at any suitable

moment as no dedicated installation ship needs to be ordered to

the site.

Independent claims 1 and 9 are new and inventive. Dependent

claims are new and inventive accordingly.
